

TR FORMAC

Global manufacturer & supplier
of industrial fastenings

We are one of the largest manufacturers and distributors of industrial fasteners globally and would very much like the opportunity to supply your company.

Manufacture & supply

- We manufacture many of our products in our own factories in the Asia and the UK
- We supply a complete range of fasteners and components and carry over 100,000 different line items in stock.
- We can manufacture special fasteners to drawing quickly and competitively.

Global support

- Our website www.trfastenings.com provides 24 hour technical support with specifications on thousands of fasteners, animations and downloadable CAD files.
- With 23 branches around the world including 8 in the UK and Ireland, we offer a truly local supply solution.
- Every one of our branches is accredited to ISO9001 and ISO14001.

Engineering & quality

- Our research and engineering capabilities encompass specific engineering disciplines, supporting both our own network and customer application solutions.
- TR to provide a maximum level of product quality preventing the production of non-conforming fasteners with the objective of approaching zero defects for specified characteristics.
- Electronic PPAP, supplier development, strategic sourcing as well as camera, laser & roller sorting.

Full service provider

- We offer very flexible supply solutions from single spot purchase, to supplying a full Vendor Managed Inventory Program.
