

Country	Russia
City	Moscow
Project Name	Petr Fomenko Theatre
Date Completed	2008
Product	Sprayplaster Systems

Moscow City Hall constructed a new building for the Fomenko Workshop Theatre which was opened in 2008 that included all the modern technical capabilities. The building's unique design was created in close collaboration by LLC Architecture, Cultural Policy PNKB and the Fomenko Workshop Theatre.

Terraco Sprayplaster Finishing Coat was specified as it provided the most suitable smooth, level and breathable finish which was decorated using conventional paint and the Terraco Terravertine Finish. This lime based, natural plaster, is designed to create a dramatic and elegant finish, which it did throughout the public areas of this magnificent venue.

The Petr Fomenko Theatre is one of the most creative and innovative stages in Moscow, founded in 1993, which since then has changed from a small studio into the internationally famous theatre. Petr Fomenko, who passed away in 2012 at the age of 80, was their outstanding theatre director who was well known for more than 60 performances, mostly based on Russian pieces of literature by Ostrovsky, Gogol, Tsvetaeva, Tolstoy, Chekhov and many others. The theatre is marked by unique plays and atmosphere as well as brilliant acting.
